

CapAir Policy Decision Register

Cover Framing: The attached policy documents represent recommended CapAir policy positions based on competitor benchmarking, regulatory guidance, existing CapAir business assumptions, and CapAir product decisions. These recommendations are being presented as business decisions for approval. Please approve each recommendation as written or provide the specific replacement value, threshold, fee, benefit, or rule you would like implemented.

Review Instructions: The Recommended Basis column identifies where each recommendation came from, such as competitor benchmarking, DOT guidance, operational considerations, or product strategy decisions. If a recommendation is not accepted, please provide the exact desired policy in the final column. General comments should be accompanied by the replacement value or rule needed to finalize the package.

Decision Register

Travel Requirements

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
1	Travel Requirement	Lap infant policy	One lap infant per ticketed adult	Derived from common airline safety practice across major U.S. carriers; selected to keep infant handling simple and avoid one adult being responsible for multiple lap infants.	☐ Approve	--
2	Travel Requirement	Child seat requirement	Children 2+ require own seat	Based on common U.S. airline practice that children age 2 and older occupy their own seat; adopted as the clearest customer-facing age rule.	☐ Approve	--
3	Travel Requirement	Family seating	Reasonable effort to seat children under 15 with an adult	Based on competitor family seating commitments that attempt to seat children near adults without guaranteeing every seating	☐ Approve	--

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
				request; protects flexibility when seat inventory is limited.		
4	Travel Requirement	UMNR required ages	Mandatory ages 5-14	Benchmarking showed major U.S. carriers commonly require unaccompanied minor service for younger children, with age 5 as a typical minimum accepted age.	☐ Approve	--
5	Travel Requirement	UMNR optional ages	Optional ages 15-17	Based on competitor models that allow older minors to travel independently while offering optional support for families who want added oversight.	☐ Approve	--
6	Travel Requirement	UMNR routing	Nonstop / direct flights only	Recommended from competitor UMNR practices that restrict or limit connections to reduce handoff, missed-connection, and disruption risk for minors.	☐ Approve	--
7	Travel Requirement	Pet fee	\$125 per flight	Selected from competitor benchmarking; \$125 is a commonly observed in-cabin pet fee among major U.S. carriers such as American, Delta, and United.	☐ Approve	--

Check-In

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
8	Check-In	Check-in opening	24 hours before departure	Matches common airline check-in window; gives customers time to confirm passenger information and obtain boarding passes.	☐ Approve	--

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
9	Check-In	Check-in closing	45 minutes before departure	Common domestic cutoff practices; supports final passenger counts, baggage processing, and boarding preparation.	☐ Approve	--
10	Check-In	Airport arrival recommendation	2 hours before departure	Based on airport planning norms; provides a clear buffer for check-in, bag drop, security, and peak travel variability.	☐ Approve	--
11	Check-In	Baggage drop deadline	45 minutes before departure	Gives airport teams time to screen, load, and route checked baggage before departure.	☐ Approve	--
12	Check-In	Boarding start	30 minutes before departure	Establishes a predictable boarding window for group boarding and on-time departure support.	☐ Approve	--
13	Check-In	Boarding cutoff	15 minutes before departure	Aligned with common airline practice; gives CapAir a firm cutoff to close boarding and finalize operations.	☐ Approve	--
14	Check-In	Same-day standby fee	No fee	Based on customer-friendly competitor practices; keeps standby available as a recovery option while seat assignment remains subject to availability.	☐ Approve	--

Baggage

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
15	Baggage	Carry-on allowance	1 free carry-on + 1 free personal item	Recommended to position CapAir closer to full-service carriers than ultra-low-cost carriers, which often charge for carry-ons; supports a more customer-friendly value proposition.	☐ Approve	--
16	Baggage	Carry-on size	22 × 14 × 9 inches	Uses a common U.S. airline carry-on size standard, including dimensions used by major	☐ Approve	--

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
				carriers; supports consistent overhead-bin enforcement.		
17	Baggage	Personal item size	18 × 14 × 8 inches	Based on common under-seat personal item sizing from competitor policies; gives customers a measurable standard and reduces boarding disputes.	☐ Approve	--
18	Baggage	Checked bag weight limit	50 lbs	Adopts the standard checked-bag weight threshold used by major U.S. airlines; supports safe handling and predictable fee application.	☐ Approve	--
19	Baggage	Checked bag size limit	62 linear inches	Adopts the industry-standard checked-bag size limit used across major U.S. carriers; controls oversized bag handling.	☐ Approve	--
20	Baggage	First checked bag fee	\$35	Competitive analysis showed major carriers commonly price first checked bags around \$35-\$40; \$35 positions CapAir slightly below many legacy-carrier benchmarks.	☐ Approve	--
21	Baggage	Second checked bag fee	\$45	Based on competitor pricing progression where the second bag is priced above the first; maintains revenue while staying within a customer-acceptable range.	☐ Approve	--
22	Baggage	Third checked bag fee	\$100	Selected to discourage excess individual baggage volume and offset additional handling; consistent with competitor escalation for third/additional checked bags.	☐ Approve	--
23	Baggage	Additional bags	\$200 each	Based on competitor patterns where fees increase sharply after the first two checked bags; protects aircraft space and baggage-operation capacity.	☐ Approve	--

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
24	Baggage	Overweight fee, 51-70 lbs	+\$100	Benchmarking found \$100 to be a common overweight fee level among major U.S. carriers for bags above the standard 50 lb threshold.	☐ Approve	--
25	Baggage	Overweight fee, 71-100 lbs	+\$200	Based on competitor overweight tiers that assess a higher fee for heavier bags due to added safety and handling burden.	☐ Approve	--
26	Baggage	Oversized fee	+\$150	Benchmarking identified \$150 as a common oversized baggage charge across multiple U.S. carriers; adopted for consistency with market practice.	☐ Approve	--
27	Baggage	Max accepted bag weight	100 lbs	Reflects common airline acceptance limits for standard checked baggage; heavier items should be redirected to special-item handling or alternate processes.	☐ Approve	--
28	Baggage	Max accepted bag size	80 linear inches	Based on competitor oversized baggage thresholds; provides a clear cutoff for what can be accepted as standard checked baggage.	☐ Approve	--

Upgrades

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
31	Upgrades	Basic Economy upgrades	Not eligible	Common competitor restriction for the lowest fare product; preserves the value distinction between Basic Economy and more flexible fares.	☐ Approve	--
33	Upgrades	Priority boarding	Separate purchasable/enhanced benefit	Based on competitor ancillary practices that sell or bundle boarding priority separately from cabin changes; creates value without changing cabin of service.	☐ Approve	--

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
34	Upgrades	Wi-Fi upgrades	Available for purchase	Based on airline ancillary revenue benchmarking; Wi-Fi is commonly offered as a purchasable travel enhancement when available by aircraft and route.	☐ Approve	--
35	Upgrades	Food & beverage upgrades	Available for purchase	Based on competitor ancillary/onboard-service models; gives customers optional enhancement choices without making them standard across every cabin or fare.	☐ Approve	--

Flight Change and Cancellations

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
31	Flight Change & Cancellation	Basic economy cancellation fee	\$99 fee for cancellation credit after 24-hour window	Selected to create meaningful differentiation between Basic Economy and higher fare products while still preserving partial ticket value through travel credit rather than complete forfeiture.	☐ Approve	--
33	Flight Change & Cancellation	Premium/Business/First Class cancellation fee	Fully refundable before departure	Recommended to position higher cabin products as flexible fare options and provide a clear value distinction from Basic Economy.	☐ Approve	--
34	Flight Change & Cancellation	Standard change fee	\$30 + fare difference	Selected as a moderate change fee that discourages frequent itinerary changes while remaining lower than historical airline change-fee models.	☐ Approve	--
35	Flight Change & Cancellation	Same-day stand-by policy	Free	Recommended to improve customer flexibility and disruption recovery without guaranteeing a seat or increasing operational costs.	☐ Approve	--

35	Flight Change & Cancellation	Confirmed same-day change fee	\$75	Recommended to create a differentiated premium option between free standby and a confirmed same-day itinerary change.	☐ Approve	--
35	Flight Change & Cancellation	Trip protection pricing	\$19.99 / \$29.99 / \$49.99 / 5% over \$1,000	Pricing structure scales with trip value and was designed to balance affordability for lower-value trips with adequate coverage pricing for higher-value itineraries.	☐ Approve	--
35	Flight Change & Cancellation	Trip protection flight reimbursement	Up to 100% of prepaid flight costs for eligible covered events	Recommended to position trip protection as a comprehensive cancellation-protection product and provide a clear customer value proposition.	☐ Approve	--
35	Flight Change & Cancellation	Trip protection baggage reimbursement	\$250 baggage delay reimbursement; \$2,000 lost, stolen, or damaged baggage reimbursement	Limits were selected to provide meaningful customer protection while maintaining manageable exposure under the trip protection program.	☐ Approve	--

Delay & Rebooking

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
39	Delay & Rebooking	Significant domestic delay	3 hours	Based on DOT refund guidance and competitor thresholds used by Delta, United, Southwest, and Frontier; adopted as the primary domestic significant-delay standard.	☐ Approve	--
40	Delay & Rebooking	Significant international delay	6 hours	Based on DOT refund guidance and competitor thresholds used by Delta, United, Southwest, and Frontier; adopted for consistency if international service is in scope.	☐ Approve	--

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
41	Delay & Rebooking	Rebooking model	CapAir-only	Based on Southwest, Spirit, and Frontier models that do not commit to partner-airline rebooking; selected to avoid interline cost and complexity for CapAir.	☐ Approve	--
42	Delay & Rebooking	Change fees during disruption	Waived	Consistent with competitor recovery practices for airline-caused disruptions; avoids charging customers for changes caused by CapAir-controlled events.	☐ Approve	--
43	Delay & Rebooking	Meal voucher trigger	3+ hour controllable disruption	Based on DOT Airline Cancellation & Delay Dashboard showing major U.S. carriers commit to meal support for controllable disruptions causing a 3+ hour wait.	☐ Approve	--
44	Delay & Rebooking	Hotel accommodations	Overnight controllable disruptions	Based on Delta, United, American, Southwest, and Spirit commitments to hotel support for qualifying overnight controllable disruptions; more customer-friendly than Frontier.	☐ Approve	--
45	Delay & Rebooking	Refund eligibility	Cancellation, significant delay, or significant schedule change	Based on DOT refund guidance and existing CapAir flight change/cancellation policy, which already offers options for airline-initiated cancellations and significant schedule changes.	☐ Approve	--
46	Delay & Rebooking	Travel credits	Offered as alternative resolution	Based on common airline recovery practice; preserves future revenue when a customer accepts credit instead of refund.	☐ Approve	--
47	Delay & Rebooking	CapAir-caused missed connections	Rebook at no charge	Based on American and Frontier disruption language that rebooks customers when airline-caused delays or cancellations create misconnections; adopted for CapAir-caused missed connections only.	☐ Approve	--
48	Delay & Rebooking	Customer-caused missed flights	Subject to fare rules	Aligned with common airline practice; avoids making CapAir responsible when the customer	☐ Approve	--

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
				misses check-in, boarding, or departure requirements.		

Regulatory

#	Policy	Decision Area	Recommendation	Recommended Basis	Status	If Changing, Specify Desired Policy
49	Regulatory	Denied boarding compensation	DOT compensation framework	Derived directly from U.S. DOT denied boarding rules, including domestic and international compensation tiers; not recommended for discretionary modification.	☐ Approve	--
50	Regulatory	Volunteer solicitation before involuntary denial	Required	Derived directly from U.S. DOT denied boarding requirements that airlines ask for volunteers before involuntary denied boarding in oversale situations.	☐ Approve	--
51	Regulatory	Government-issued ID requirements	Required for adult domestic travel	Based on airport/security documentation expectations, requiring valid government-issued photo ID and boarding pass for adults.	☐ Approve	--
52	Regulatory	Service animal accommodation	Comply with applicable law	Based on legal accessibility requirements rather than competitor preference; should be treated as compliance-driven, not discretionary.	☐ Approve	--
